

Your Complete Tool Control Solution

JENSEN® Tool Control Solutions are designed to eliminate foreign object debris (FOD), reduce theft, and maintain professional and neat work areas. When you purchase JENSEN® Tool Control, you receive personalized service from one of the world's largest tool companies.

Tool Cases, Cabinets, Workstations, Shop Floor and Complete Production Line Solutions

We create everything from portable hard or soft cased tool kits, to large cabinets, to entire hangar outfits. Tool cutouts are CNC-machined so your tools fit perfectly. We offer various foam styles for different applications including cleanroom necessities.
